

NOTES:

1. Center Hole is for post mounting. Two outside holes are for mounting to a laser carriage, such as the Photonic Devices Model 11-2010, or most other laser carriages as provided by Control Laser/Quantronix, Lee Laser, US Laser and other system manufacturers.

2. A 1.482" + 0.002" central bore is available for mounting the Rodenstock zoon beam expander. Specify Model 11-MG001-1.48

3. All dimensions are in INCHES.
